

The adoption of the "Broadcast Flag" rule would be a watershed in corporate greed overcoming basic, ESTABLISHED constitutional rights. While copyright holders do have an undeniable right to protect their intellectual property, they do NOT have a right to force the consumer to bear the burden of enforcement. The FCC is mandated to manage the airwaves for the PUBLIC, NOT corporate America (although you would not know it from the way the FCC has been functioning for the last 20 years)! I urge the FCC to come to its senses and reject this terribly flawed concept. When the FCC mandates that all broadcasters MUST offer digital broadcasts, the it MUST protect our constitutional rights to fair use. Expect many, many lawsuits and litigation if the FCC does otherwise.
